

## D500 Digital G3 Thermal Brewer

To complement our full selection of premium coffees, we have tested coffeemakers from the world's leading manufacturers. We look for outstanding reliability, ease of use and brew quality.

This is the ideal thermal brewer for locations with variable volume coffee consumption. It offers many advantages...

- Gourmet coffee brew settings
- Pre-Infusion brewing
- Fully digital display
- Power save mode saves energy
- Quick brew cycle and recovery time
- Mobile thermal servers for meetings and conferences
- Handy hot water spout for tea, hot chocolate or soup
- Economical and efficient
- Attractive presentation
- Thermal servers maintain fresh coffee for several hours!
